

HBBMailComponent Tutorial

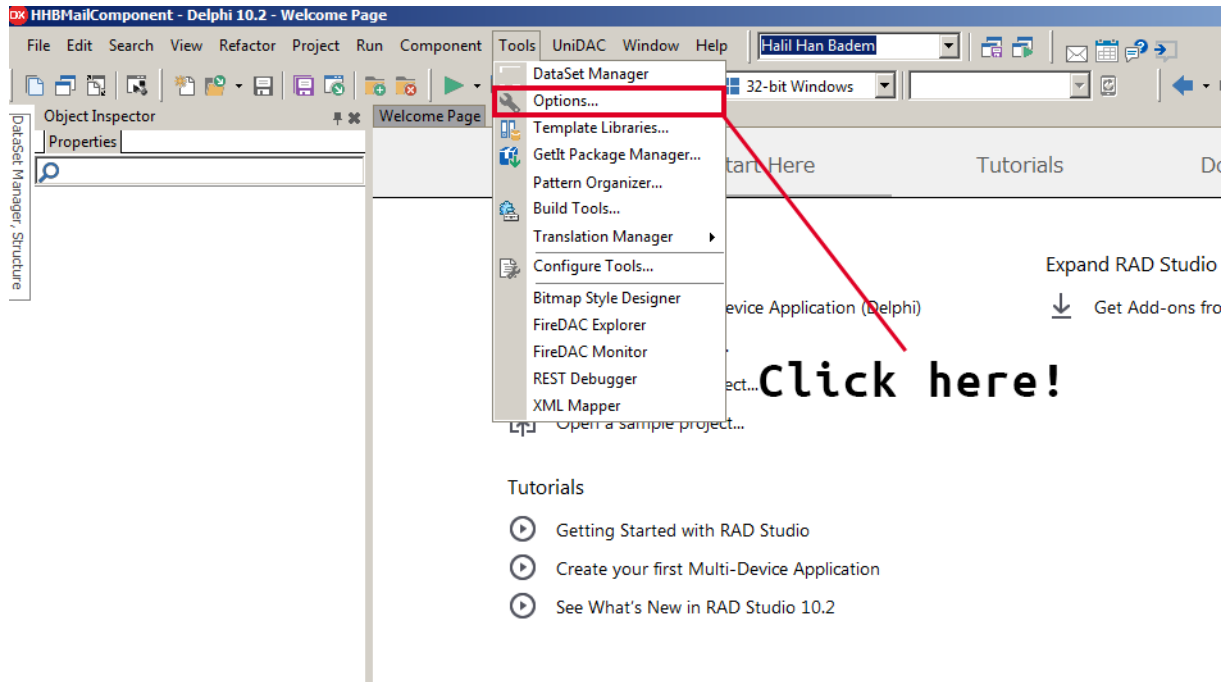

Hello there! Thank you for looking into this file. Only component installation is available in this file. I would like to give you some information about the component. A study of deriving from Indy components. So it must be Indy component in Delphi IDE. Almost all versions already have Indy components. You do not need to make an installation veya install anything.

To continue; There is a sample application on Github. You can look at it. There will be some images for post component setup.
